

Infection Control Measures in PGH

Please observe the updated measures in the Postgraduate Halls below to reduce COVID-19 infection risk and protect all residents.

A. Infection Control Measures

1. Always wear masks in common areas.
2. Visitation resumes normal, i.e. friends and family members of residents are allowed during visiting hours (8AM – 11PM) and have to register at counter; “Overnight Visitor Ticket” is suspended.
3. Report to PGH Office before leaving Hong Kong and returning to PGH via [online form](#); complete Health Declaration Form at counter upon arrival to PGH.

B. Health Advice to Infected Residents

For the sake of health of all residents, infected residents are strongly advised to report to our Office and stay at our designated isolation rooms or they can opt to stay off-campus temporarily to minimize the risk of spreading COVID-19 in the hostels. Please read the updated arrangement of handling positive cases [here](#). For more health advice, please refer to the government's website <https://www.coronavirus.gov.hk/eng/index.html> .

Thank you for your attention and cooperation.
